

UNITED FOR PATIENT 'SAFETY'.

We are committed to patient safety and excellent health care services. We commit to effective and responsive care coordination between patients, family members, health care workers, leaders and policymakers. We are committed to evidence-based practices that increase the safety of our patients and our team.

WE COMMIT TO WORKING IN PARTNERSHIP USING THE MULTIDISCIPLINARY TEAM APPROACH TO:

- Prevent harm in health care wherever possible and as soon as possible;
- Strengthen systems by continuously improving on evidence-based safety and quality performance metrics;
- Ensure interventions are necessary thereby promoting effective use of scarce resources;
- Patient engagement and involvement in the decisions about treatments and sharing of outcomes;
- Promote culturally sensitive approaches to service delivery;
- Be transparent, authentic and respectful with each other in all that we do;
- Continue to focus on Patient Safety as a Strategic Priority;
- Continuously assess our patient safety initiatives to improve performance;

In partnership with all who share these goals, we will strive to achieve great health care that is safe, empathetic and respectful. This is our Patient Safety Commitment.
